Memorandum

Date: July 14, 2015

To: Honorable Chairman Jean Monestime
and Members, Board of County Commissioners

From: Carlos A. Gimenez
Mayor 

Subject: Resolution Approving Qualified Target Industry Tax Refund for Confidential Project Zorin

Recommendation

It is recommended that the Board of County Commissioners (Board) approve the attached resolution authorizing Project Zorin to be recognized by the State of Florida as a Qualified Target Industry business and entitled to the financial benefits afforded under the Qualified Target Industry Tax Refund Program. The Beacon Council, on behalf of Confidential Project Zorin, has submitted an application for economic development incentives from the State and Miami-Dade County that require approval from the Board.

Scope

Project Zorin plans to establish an 18,000 square foot corporate headquarters for an alternative energy company in Miami-Dade County. The location for the business operations is undetermined at this time. This project will create 80 new full-time equivalent jobs, as defined in Florida Statute section 288.106, over a three-year period, while creating countywide economic benefits from direct and indirect job creation.

Fiscal Impact / Funding Source

Project Zorin has applied for a total of \$560,000.00 in Qualified Target Industry tax refunds over a six-year period, of which 80 percent (\$448,000.00) would be provided by the State and 20 percent (\$112,000.00) will be the local match provided by Miami-Dade County. If the accompanying resolution is approved by the Board, the County is committed to provide up to \$112,000.00 in matching funds from countywide general fund revenues over a six-year period beginning in FY 2016. Based on the projected investment of \$3,021,000.00 in new real property, the project's property taxes paid to the County will be approximately \$33,269.00 greater than the unimproved tax rate during the six (6) years the company would be eligible for the award. Therefore, this project will create a negative financial impact to the general revenue fund of approximately \$78,731.00 over the six (6) years, thus generating insufficient countywide general fund revenue to offset the County's local match for the award. However, generating equivalent general revenue funds is not a condition of the Qualified Target Industry Tax Refund Program. The County's 20 percent local match is required when the State determines that 80 new jobs have been created and have met the average salary threshold required in the State's tax refund agreement according to the schedule set forth in the attached Florida Qualified Target Industry Tax Refund application. The disbursement schedule and the anticipated dates for job creation are subject to change at the discretion of the Florida Department of Economic Opportunity.

Track Record/Monitor

Qualified Target Industry funds awarded for job creation are provided on a matching basis upon the State invoicing the County for its 20 percent of the financial commitment for jobs created and

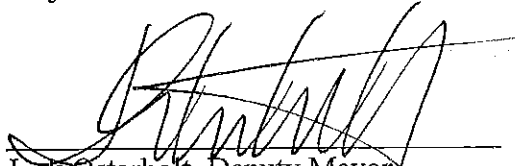

verified by the State. The incentive amount is determined by the new jobs created and their annual salary. The State is responsible for verifying compliance with the terms of the award. The County's matching funds are distributed only if the applicant creates the 80 new jobs indicated in the accompanying Qualified Target Industry application and complies with all other conditions of the incentive program. County staff requires access to the company's real estate and tangible personal property filings during the incentive period to monitor the fiscal impact to the general fund from the Qualified Target Industry Tax Refund Program.

Background

Project Zorin is a hydrogen energy company that is harnessing a pioneering energy source technology (NAICS Code #551114). The company states that they have raised \$100 million and they are raising another \$100 million for research, development, and marketing of products. The company is considering relocating their corporate headquarters to Miami-Dade County during the fall of 2015, but is also considering locations in Massachusetts, North Carolina, and Texas.

Project Zorin would employ 80 new workers paying an average annualized salary of \$92,442.00, which represents more than 200 percent of the State average wage. According to documents submitted by The Beacon Council, employee benefits associated with each newly created job will be \$13,000.00. The value of employee benefits, however, is not a requirement of the tax refund agreement with the State or the County's local match.

Project details are summarized in the attached chart.

Enclosed you will find an application for the State of Florida's Qualified Targeted Industry Tax Refund Program (QTI). Confidential Project Zorin is the corporate headquarters of an alternative energy company that is considering relocating to Miami-Dade County. The project will create 80 new jobs with an average annualized salary of \$92,442, and is committed to a new capital investment of \$3,021,000 in Miami-Dade County over the first 3 years.

We are referring this application to your office for review and preparation of a resolution to the Miami-Dade Board of County Commissioners requesting a maximum of \$112,000 representing Miami-Dade's 20% QTI portion, to be paid over a period of six years. Attached is the revised project briefing book as well as the economic impact analysis prepared by The Beacon Council's Research Department.

We are requesting that the item be placed on the next available agenda of the Board of County Commissioners.

We look forward to working together for the benefit of the economic development of Miami-Dade County. If you have any questions, please contact me at (305) 579-1343.

Florida Qualified Target Industry Tax Refund (QTI)

Confidential Project: Zorin

June 1, 2015

Prepared by the Beacon Council

Executive Summary for Confidential Project: Zorin

Background

Project Zorin is an alternative energy company that is looking to relocate their corporate headquarters. The company is currently evaluating Miami-Dade County and other locations such as Massachusetts, North Carolina and Texas. The project will create 80 direct new jobs with an average annualized salary of \$92,442 in Miami-Dade County over a 3-year period and make a new capital investment of \$3,021,000. The average salary of \$92,442 represents over 200% of the State average wage.

Taking into account total property taxes generated in Miami-Dade County based on the company's projected capital investment of \$3,021,000, Project Zorin will generate \$132,979 in new Miami-Dade County Property Taxes over a 6-year period. Of that amount, \$99,710 represents new tax generation that will be committed to Miami-Dade County Public Schools, Libraries, the Fire Department, etc. The balance of \$33,269 in new Miami-Dade County Property Taxes will be committed to the Miami-Dade County General Fund.

Based on the projected job creation of 80 new jobs with an average salary of \$92,442, Project Zorin will generate \$53,702,759 in direct and indirect wages over a 6-year period.

Basic Assumptions

- The latest Miami-Dade County millage tax rates (2014) were used.
- This latest millage rate was used for the entire 6-year period analysis.

Recommendation

The enclosed QTI application package requests a maximum of \$112,000 (20% of total incentive) to be paid by the County over a period of six years. This award recognizes the creation of new, high-paying jobs in a targeted industry.

Of Miami-Dade County's \$112,000 contribution to the QTI, a total of \$33,269 can be derived from the Miami-Dade County General Fund. Therefore, Miami-Dade County must commit to contribute an additional \$78,731 over a 6-year period, or \$13,122 a year, resulting in a net revenue benefit of 1:0.30.

This is a performance-based incentive. No funds will be provided to the Company until they meet all program and job creation requirements. The incentive that is provided is not a cash grant; it is an after-the-fact, performance-based refund.

- The total award will be equal to \$3,000 (\$6,000 in Enterprise Zones or Rural Counties) times the number of jobs reported in item 1A. Additional per job bonuses may be available; however, the QTI award may not exceed five times the local financial support paid by the community.
 - \$1,000 per job if the average annual wage is at least 150% of the area's average; or \$2,000 per job if the average annual wage is at least 200%.
 - \$2,000 per job if the business falls within a designated high impact sector OR if the business increases exports of its goods through a seaport or airport in the state by at least 10 percent in value or tonnage in each year of receiving a QTI refund.
